LOADING MACHINE EXHIBITED BY CHARLEROI IRON WORKS

One of a Number of Specialties that is Being Made by Local Plant

MUST INCREASE ITS CAPACITY

A demonstration of the Joy loading machine, owned by the Joy Machine company of Pittsburgh, and manufactured by the Charleroi Iron Works, was given on McKean avenue, in front of the Iron Works plant, at 2 o'clock Friday afternoon. A number of interested spectators were on hand to see the loader perform, and all were highly interested in the workings of the machine which is expected to bring a great deal of business to the local plant.

There is but one other machine of this make in the United States, and it is being used by the Kennedy Coal company of Pittsburgh, where it has been in operation for over three months, and where it is given entire satisfaction.

The Joy machine not only loads the truck or car as the case may be, but likewise has a self-feeder attachment, which minimizes the amount of labor in the operation of one of these loaders. By means of what might be termed flexible arms fixed to revolving discs the coal or other material to be loaded is gathered on to the elevator and conveyed into the truck or car as the case may be. The machine is electrically driven, which also provides power for moving the machine back or forward as may be required while the loading is in process.

The machine tested on Friday was the second one built, and the first one erected by the local company. It is expected, however, that the machine will meet a long-felt want and that the demand for them will furnish the local plant with a considerable amount of business. The company owning the patent is a strong organization and one well able to finance the enterprise in which they are now engaged.

TEACHERS RETURN TO THEIR OLD JOBS

Industrial depression in many plants throughout the State is causing a return to the schools of teachers who gave up their profession for high wages in other lines of work during the war. This is the opinion of officials of the State Department of Public Instruction in charge of the teacher placement service.

The schools sustained considerable losses during the period of high wages by resignations of teachers who obtained places in Government work and with industrial concerns at higher salaries than they were receiving for teaching. Men teachers left in larger numbers than the women. In 1900, figures compiled by Dr. Albert L. Rowland in charge of the service, show the teachers included

Minister's Meeting

The ministers of Charleroi will hold their regular monthly meeting Tuesday afternoon, April 5, at 1:30 o'clock, at the Washington Avenue Presbyterian church. Program for the hour, the Book of Joel, to be reviewed by the pastor, Rev. John R. Burson. The members are urged to be present. H. G. Woodrow, secretary.

FAYETTE BAR TO ACT ON JURY FIXING

A special meeting of the Fayette county Bar Association has been called by the President for Monday morning next at 10 o'clock, in the large court room at Uniontown. Notices of the meeting have been sent out by the secretary, which urges all members to be present, as matters of importance will be taken up.

While the purpose of the meeting is not stated, it is understood from reliable sources that drastic action will be proposed relative to practices of certain members of the association. The climax is said to have come as a result of disclosures in connection with the liquor hearings, which came to an abrupt ending last Monday, when Judge E. H. Reppert quashed the entire panel of jurors for the last three weeks of the extended March term of criminal court.

Members of the association became indignant when it became known that jurors summoned for services had been approached by interested parties with a view of influencing their action while sitting on the liquor cases. Following the action of court on Monday last a number of the members of the association prepared a request for a special meeting of the association, which was handed to the president of the association. An interesting meeting is expected.

Uniontown, Pa., boasts of nine destitute families, each of which owns an automobile. The case is less remarkable, after we come to think of it, than might be supposed, for there are plenty of owners of automobiles elsewhere who are in need of help.

About seventy per cent women and thirty per cent men. The proportion of men dropped to about twenty-four per cent in 1905, twenty-one per cent in 1910 and sixteen per cent in 1918. It is estimated that at present it is about fourteen per cent.

Many of those who have applied recently for positions have been questioned as to their reasons for desiring to re-enter the teaching profession. Several, according to Dr. Rowland have admitted frankly that they were out of jobs as a result of the industrial situation. While the officials express the belief that has been the reason in many cases, the applicants, fearing they might prejudice their chances by conveying the impression that another era in high wages result in their leaving the school again, have given other reasons.

Coal Shipments Show an Increase Over February

In spite of the differences between up, 1178; loaded craft down, 1133; steamboat owners and employees on the wage question, which affected Captains, pilots and engineers, many of whom refuse to work at the 20 per cent reduction which took effect on the first of March, traffic through Lock No. 4 for the month of March, as submitted by Lockmaster James A. Sweezy shows a slight increase over the previous month, especially in coal and steel products.

The coal shipments for February were 840,300 tons, while for March they were 923,560 tons, an increase of 83,460 tons. Steel products show an increase of about one hundred tons. The total number of loadings fell short about three hundred.

The following will show the entire monthly traffic in detail:—Total loadings, 770; steamers 457; empty craft up, 1178; loaded craft down, 1133; general merchandise, 430 tons; steel products 656 tons; stone 850 tons.

During the month several of the towboats were forced to run single crew on account of the shortage of engineers. This deficiency, however, it is said, will soon be overcome by securing men from other districts. A few of the pilots are still out, but it is reported that most of the Captains and pilots have or will accept the 20 per cent reduction in wages.

An innovation in coal transportation facilities was the appearance of the mammoth steel barge put in commission by the Pittsburgh Steel company, which is being used in transporting coke from the Alicia plant at Brownsville to the new hoist at Monessen. The barge has proved to be a success and will be used exclusively in this trade.

MARINE BAND WILL VISIT MONONGAHELA

The United States Marine band from Washington, with 125 members, is scheduled to appear in Monongahela next Tuesday afternoon, where it will remain for a couple of hours. During its stay in that city it will give a public concert, with a view of stimulating recruiting for the Marines. At the same time a recruiting station will be opened in the public building at Monongahela, which will be continued for a period of thirty days. The band will also visit Donora later Tuesday evening. The members of the band occupy two special cars.

JURORS SUMMONED FOR MAY TERM OF COURT

Among the grand and petit jurors drawn for the May term of criminal court from Charleroi, are T. D. Williamson on the grand jury; George D. Clark, W. R. Gaut, T. B. Hastings and William Jimison on the petit jury, beginning May 9, and L. P. Flickinger and George H. Truby for week beginning May 16.

CHAMBER OF COMMERCE WILL HOLD BANQUET ON APRIL 19

Mrs. Clara Schneider
Mrs. Clara Schneider, aged 63, died at the Allegheny General Hospital, April 1, 1920, from blood poisoning. She was the widow of the late John G. Schneider, and formerly lived in Belle Vernon. She made her home with her daughter, Mrs. S. A. McKenney, 107 Lookout avenue, where the funeral will take place on Sunday afternoon at 2:30 o'clock, interment in Belle Vernon cemetery.

MEN'S CLASS HOLDS SPRING MEETING

The Men's Bible class of the Washington Avenue Presbyterian church held its spring fellowship meeting in the Sunday school room of the church on Friday evening. The assembly was characterized by the fine aggressive spirit that has won such praise for the members.

Dr. J. W. Manon, the class president, being ill, the vice president, Mr. McQuaide, had charge of the program. Musical numbers were given by Mr. Dobson of Belle Vernon, and Marion Kinder of Charleroi, who were accompanied by Miss Weller of Belle Vernon, and the Ladies Quartet of the church, composed of Miss Emma Clutter, Miss Grace Fleming, Mrs. John Metz and Mrs. John Clutter, accompanied by Miss Bethel Bowman.

The address of the evening was given by Dr. White, Professor of English Literature and Public Speaking in Washington and Jefferson College. He spoke to the men on "Some Modern Problems," and was listened to with rapt attention.

The supper was served in courses and much credit is due the following members who looked after the culinary department: Lee Honsaker, chairman; with Stewart McKean, Edward Bradley, J. W. Kimmins, E. C. Robertson, F. L. Knappenberger, Edward Vernon, James Hill, Loren Tope, R. G. Knight, Bert Mitchell and F. J. Kurpjuweit. There were 85 present and Dr. White complimented the class or the fine showing made.

PREPARING AIRPLANE FOR SUMMER FLIGHTS

Airman David Ruse of Monessen expects to take from storage within a few days the airship of the Monessen Airplane company, and begin preparations for opening the season for flying. Last year the company, though beginning late, made a good showing, and this season everything appears to be in their favor. Mr. Ruse will spend about two weeks in getting the plane in shape and beginning about the middle of April a series of flying trips will begin from the Allen farm, which is much nearer Monessen than the location at Lynn's grove. After serving there for a time the company will start a tour of surrounding states.

We do hemstitching. White Sewing Machine Co. 425 Fallowfield avenue. 253-16-p.

Noted Speakers Will Be Present to Discuss Leading Topics of Day

HON. J. K. TENER, TOASTMASTER

One of the most important items considered by the Board of Directors of the Chamber of Commerce, at the meeting held Thursday evening was the banquet. It has been the desire of the Secretary-Manager and the Board of Directors that a great social gathering be planned for the entire membership of the Chamber of Commerce.

This is to take the form of a banquet to be held on Tuesday, April 19th, at 6:30 P. M. in the High School Gymnasium. Edward James Cattell of Philadelphia and Hon. William Fields of Washington, D. C. will be the two speakers. The latter will speak on Community Development and Leadership. Mr. Fields is serving his sixth term from the ninth congressional district of Kentucky and for years has been a member of the Military Committee of Congress, and has traveled over the blood-stained battlefields of Europe, and hence will come to us a great fund of information. These two speakers are of national reputation and ought to command a large hearing on the part of the people of this community. Hon. J. K. Tener will be the toastmaster. The High School will be beautifully decorated and vocal and instrumental music will add to the beauty of the occasion. The tickets will cost \$2.50 and as the seating capacity is limited all members of the Chamber and their families are urged to make reservations at an early date. The Methodist Episcopal church will serve the supper and the entire menu will be published at a later date. This promises to be one of the greatest social events that has ever taken place in Charleroi and undoubtedly will shake the community from center to circumference. Those who have the banquet in charge are determined to make this a great occasion and one which every member of the Chamber ought to plan to attend.

On recommendation of the Merchants' committee, the Board of Directors passed a resolution that no funds be donated to soliciting committees unless their project has been approved by the Chamber of Commerce Committee, and that the Secretary-Manager is in power to appoint such a committee for this purpose at any time. Also, the Board in compliance with the Merchants' request recommended that a certain day be designated as "Dollar Day."

It is necessary that your rugs and carpets, into which are trapped the dirt and grime and germs of the streets day after day, should be thoroughly washed in order to be cleaned. Electric Carpet Cleaning Co., 719 Fallowfield avenue, Local Phone 285. 254-11.

POINTED SAYINGS.

In a recent dispatch from Berlin Charles H. Grasty, the noted American correspondent, said: "The German is an industrial prodigy and a political defective." In such happy phrase the history of Germany and Germans in modern times is summed up with remarkable accuracy. This pointed and pithy utterance brings to mind another, equally forcible and no less successful in condensation, made by Ambassador Davis in his farewell speech in London. Summing up the truths made clear by the great war and subsequent events, Mr. Davis said: "That militarism is a danger and not a safeguard; that there are no gains to match the losses in modern warfare; that a sick neighbor may be quite as dangerous as a wicked one; that neither nations nor men can live in air-tight compartments; that men cannot live without eating nor eat without working; that men work best when working to help themselves; that communism always has been, and always will be, an ignoble fraud; that one cannot spend what he has not got."

Mr. Davis referred to his address as "a bath of the obvious," but such an epigrammatic epitome as this is a marked and refreshing variation from the ordinary stringing of platitudes around the obvious, so much of which is offered a weary public. It is this ability to say much in little that makes Grasty uncommonly readable, and it is largely the same gift that has caused Ambassador Davis to win so high a place in the estimation of the intelligent classes in Great Britain. His successor at the post will need to exert himself if he does not wish to be regarded as a relatively disappointing figure in the field of diplomatic eloquence.

As we still have a square mile for every 35 persons, or about 18 acres for every man, woman and child, it is still rather early to speak of the United States as overcrowded.

NOTICE.

Mr. Business Man: Do you know that you can improve your property and increase your business many times by having a neat and attractive front on your building?

Mr. Property Owner: Do you know that you can make your old house like new, increase the value of your property many times, and eliminate the other of painting every two or three years?

All this can be done by the use of Hercules Magnesite Stucco, guaranteed not to crumble, crack or freeze. It will pay you to investigate. All information and estimates free.

952 Franklin Cars Shipped in February

Sales Keeping Up to High Level at Syracuse Factory. Business for the month of February as reported by the Franklin Automobile company of Syracuse show that sales are keeping up to a high level. By February 15 the entire month's production had been sold, and to meet the over-demand the factory was called upon for 100 more cars than planned for. Shipments for the month totaled 952 cars, or within 35 cars of the best February in the company's history—this occurring last year. A new record would have been hung up this year but for the fact that February, 1921 had one less day than February, 1920.

Even with the Franklin factory working on a 40-car-per-day program, which is the present rate of production, it found itself unable to keep up with orders. During February the total number of orders received aggregated 1107, and even the 952-car output fell short of filling orders for February shipment; by 153 cars. The manufacturing schedule for March calls for the production of 1031 cars.

"millions now living will never die"

---Judge Rutherford

The Scriptures abound in time prophecies indicating when such events as have distressed mankind during the past few years, and the opportunity for profiteering in all its phases will forever end.

The divine law is inexorable and every inspired revelation of the divine purpose respecting the affairs of the old world, over which Jehovah for a special purpose tolerated Satan to rule, has been fulfilled exactly on time, and the time for the binding of Satan is at hand.

Every Bible scholar is aware, whether it is now or one hundred years hence, that mankind will sometime arrive at the end of Satan's reign, when everlasting life on this earth can be his blessed portion, instead of death and the tomb as has been the case under Satan's six thousand years of evil domination and delusion.

The purpose of this free lecture is to furnish every inquirer positive Biblical proof and secular evidence, based on prophecies fulfilled during the past five years that we will within the next few years enter this long hoped-for period, when families will be reunited and live happily on earth forever.

If you are interested in the future blessing of yourself and your loved ones and of the whole human family you owe it to yourself to hear this lecture by

M. A. HOWLETT

Toronto, Canada

Star Theatre, Monessen, Pa.

SUNDAY, 3 p.m. APRIL 3rd

This lecture has comforted multitudes bereaved by the world war, epidemics, and attending sorrows. So great has been the demand that it has been amplified and published in book form, including 500 Scriptural proof texts. Those unable to hear the lecture may have a copy by sending 25c to the Golden Age News Bureau, Monessen, Pa.

DELEGATE MEETING OF MINERS TO BE HELD

Called, it is said, to discuss taking civil action in the courts against the officials of District No. 5, United Mine Workers, the policy committee of the insurgent mine workers of the district announced last evening that a delegate meeting of the insurgents, who contend they are the real organization, will be held at 11 o'clock tomorrow morning in Italian Hall, Eighth street, Charleroi. The civil action sought will be based on alleged misappropriation of the district funds and frauds in the district election.

The Japanese are making great progress in athletic sports, and not for the mere fun of it, we may be sure. Although entirely overlooked by the German militarists there is no better preparation of a nation's young men for war.

Capital's Humble Beginning.

At the time of Monroe's inauguration, in 1817, Washington was a village of 5,000 inhabitants, living mostly in huts scattered over an extensive area. The so-called "Federal city" was a joke, and was more frequently called "The Mudhole" and "Washington's City in the Potomac."

Laying Linoleum.

When linoleum is laid it must have room to stretch. If it is not given room, by leaving the edges loose for a little time, it will form itself into ridges and eventually crack. Wherever there is a joining an eighth of an inch should be allowed.

Only Cause of Blood Poisoning.

Blood-poisoning or septicemia is never caused by dyes, verdigris, rust or any chemical. The only cause is bacteria. A bright new nail or a clean-looking white stocking may harbor these germs, while a rusty nail may be perfectly harmless.

Deported as Undesirable.

Little Jean was filled with love and admiration for the tiny baby sister who, she had been told, had been sent her from heaven. The love and admiration changed to disgust, however, when the new arrival discovered that she possessed a strong pair of lungs which she exercised unceasingly. The other day Jean was overheard to remark to a little playmate "Just listen to her whoop it up! I bet she yelled like that in heaven and the angels chuckled her out."

Musical Instruments in Arabia.

"The Arabian love-songs seemed of and for the desert. Always in a minor key, usually high-pitched, slightly nasal, at times ending in a resigned, hopeless minor note, they were weird and plaintive" according to a writer in Asia Magazine. "One did not need to understand the words; perhaps it was best that one should not, for they were frequently bald and unlovely. It was the music that told the story, revealed the passion and even hinted of that it dared not tell."

Gave Them What They Asked For. Deacons seeking ministers for their churches often applied to Mr. Spurgeon, famous English pulpit orator. One asked him to send a student who could "fill the chapel," and got an answer saying that Mr. Spurgeon had not one big enough, but he thought he could send one who might fill the pulpit. A reply came that that was really what they wanted, and a minister was accordingly sent. It was Mr. Whale.

Burns' Features Were Coarse.

Regarding the description of Robert Burns, Scott says his features have been unduly refined by his portraits. Burns was about the average height and of heavy build, with features inclined to coarseness. Numerous observers have commented on the extraordinary glow in his eyes. "I never saw such another eye," says Scott, "in any human head."

Did Her Little Best.

"Dorothy, dear, I hope when you took back the picture book that you thanked Mrs. Naylor for lending it to you." "Then" was nobody home, mamma, but the door was open so I went in and out the picture book on the table and said 'Thank you,' and 'comed away.'—Boston Transcript.

"Brazilian Grass."

This is a name incorrectly applied to a substance used in the manufacture of a cheap kind of hats known as Brazilian grass hats, and also as chip hats. It consists of strips of leaves of a palm, which are imported to Great Britain and elsewhere for this manufacture, chiefly from Cuba.

RE-BUILT CARS

Selling used cars with us is incidental to the sale of new cars and not for profit.

But, we have a real interest in every car sold, for we haven't discovered any better way to secure new customers than by giving efficient service to those we have.

It will be a pleasure to tell you about the following cars traded in for new ones, and a demonstration will be cheerfully made at your convenience upon request.

ECZEMA!

Don't treat without first consulting HENNING'S DRUG STORE. If ECZEMA, RINGWORM, TETTER or other itching skin diseases. Try a 75 cent box at our store.

Smart Clothes No Flapper Wants to Be Without

"Spring is here!" is the message conveyed in simple, unaffected fashion by the girlish modes we have gathered together for the delectation of youth.

Sprightly new styles, new fabrics and unusually attractive colors and combinations of tones make the long looked forward task of choosing stunning new things to wear a delightfully pleasant and profitable task. Prices are economical.

BRIGHT TONES AND ARTFUL DECORATIONS ENHANCE THE NEW HATS

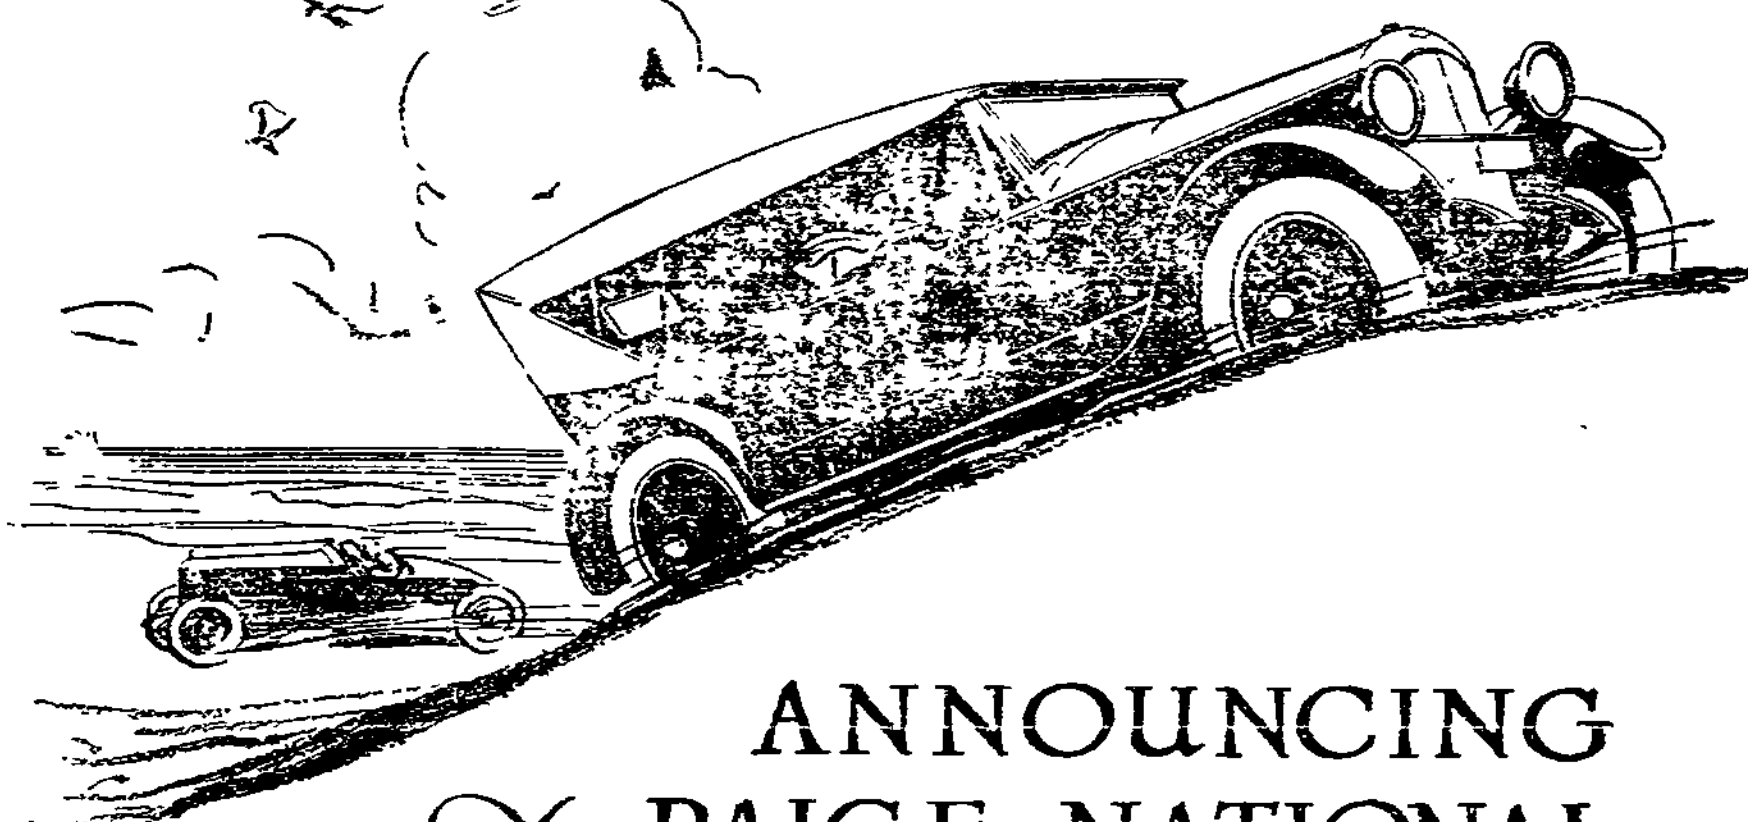

Flowers, wonderfully natural looking, are draped around the crowns or permitted to hang gracefully from the sides or back of broad brimmed Hats of shiny lissere and milan straw. Tricotines, toques and turbans, made by hand from glistening cellophane or visca are embellished with jet ornaments and veiled with filmy laces. Such are the Hats milady may choose for street or afternoon wear. Sports occasions are represented here with chipper little hats in which silk fabrics, wool flowers, and strips of leather play prominent parts.

PAIGE

THE MOST BEAUTIFUL CAR IN AMERICA

ANNOUNCING The PAIGE NATIONAL DEMONSTRATION WEEK

For one week—commencing Monday, April 4th.—our Dealers in every section of the nation will conduct a special series of demonstrations with the complete line of Paige cars.

Our "Daytona 6-66" model now holds the world's stock car record for speed. It will be the purpose of Demonstration Week to prove that any Paige car—in the hands of an unprofessional driver—is indeed Master of the Highway.

No other stock car has ever equalled our own speed record of 102.8 miles per hour. No other car, we are confident, can defeat a Paige in the milder tests of general demonstration work.

Proving itself the fastest car, the Paige 6-66 has revealed qualities of endurance and strength that are beyond dispute. World's champion ship form is a guarantee of all round efficiency—the best guarantee that the sporting world affords.

But these are facts that we want you to establish for yourself, and

Demonstration Week offers an unrivaled opportunity. You have but to get in touch with our Dealer and he will book you for a ride that will prove finally convincing.

Then, with an actual record of the tests, you will be in position to compare the Paige 6-66 with any other motor car—at any price—on the American market.

You will also be able to determine whether the New Series "Glenbrook Six-44" is or is not the greatest dollar for dollar value in the light six field.

Surely no man could ask for a fairer or more sportsmanlike proposition.

Whether you contemplate buying a motor car or not, we very cordially invite you to ride with Paige during the coming week. It will prove a revelation, we believe—and a liberal education in strictly modern engineering.
